Subject: E-DEMOCRACY SET-UP FOR THE PEOPLE'S GRAND JURY

To: maneka@humanidad.org

This is why Sacha wants us to talk. Here is a "White Paper" on the People's Grand Jury we are organizing - and why the E-Democracy set-up would fit right in.

Let me know when you can read this, then send me to your information, and I will absorb as much as I can before we talk.

Oh, my, this is so exciting! It feels like we have all been working and working on ways to move our world forward, and this year we are all connecting in amazing ways.

NEN, and Sacha and Greg in particular, have kept all of this info at their fingertips to plug everyone into the right spot.

The big question is how to manifest the perfect IT people to get the E-Democracy platform up and running. What is involved??? Do you have info that will help me understand the techie side, too?

Can't wait to talk further.

Here's what Jeanmarie shared:

Maneka is a pioneer in the areas of direct democracy, global networking and innovation for a sustainable future. She has been engaged in the field of direct democracy since 1992 through software development, global networking and political work. She has studied human ecology, science theory, global affairs and pedagogics and is a teacher with a masters degree. She has worked with leading scientists in the fields of clean energy technology and psychology. Through her involvements in various non-profit projects and organizations and through her meetings with people from all over the world, a clear vision of the world's vast possibilities took form. Maneka has been working with the Humanidad Foundation since 2005 in various projects such as the development of the global internet platform Humanishpere, New Earth Sanctuaries, Exemplar Zero initiatives such as the development green energy technologies and ecological farming techniques.
